Summary

Experienced Quality Assurance professional with over 8 years of expertise in the E-commerce industry, including 5 years of specialization in Payment Systems. Proven track record in ensuring product quality through comprehensive testing strategies, automation, and performance testing. Skilled in API testing, defect management, and cross-functional collaboration to deliver seamless user experiences. Proficient in a wide range of tools and technologies, including Playwright, Cypress, JMeter, Postman, and Selenium. Adept at leading testing initiatives, improving test coverage, and resolving critical issues to ensure successful product launches. Demonstrated success in driving key projects, such as revamping e-commerce platforms, implementing new payment systems, and enhancing back-office functionalities. A results-driven QA Engineer with a commitment to continuous improvement and delivering high-quality software solutions.
